Index to ITE Publications—1986

The Index to ITE Publications is divided into two sections. Section 1 lists everything published in *ITE Journal* in 1986. Section 2 lists all other 1986 ITE publications. Both sections are divided into a Subject Index and an Author Index.

ITE Journal

Volume 56, January 1986–December 1986

Single copies of available back issues of *ITE Journal* can be purchased for $5 from ITE Headquarters, 525 School Street, S.W., Suite 410, Washington, DC 20024-2729 USA. Copies of individual articles can be ordered through University Microfilms International, 300 North Zeeb Road, Ann Arbor, MI 48106 USA; telephone 800/732-0616.

Subject Index

Accidents

Analysis of Automobile Accidents in Riyadh. Lee, Kang W. Feb., 35-39.

Engineering Factors in Alcohol-Involved Traffic Accidents. Hall, Jerome. Jan., 25-28.

Liability in the 1980s: Construction Zones, Intersections, and the MUTCD. Oliver, David C. Apr., 27-32.

Use of Accident Type and Road Class Information in Assessing the Urban Road Safety Problem. Hoque, Mohammed M., and Andreassen, David C. Aug., 51-54.

Channelization

Analysis of Operation and Safety Characteristics of Left-Turn Lanes. Craus, Joseph, and Mahalel, David. July, 34-39.

Evaluation of Left-Turn Analysis Procedures. Machemehl, Randy B. Nov., 37-41.

Intersection Management Techniques for the Left-Turning Vehicle: The Indianapolis Experience. Greiwe, Ronald R. June, 23-28.

Left Turns on Amber and Red from Exclusive Double Left-Turn Lanes. Stokes, Robert W.; Messer, Carroll J.; and Stover, Vergil G. Jan., 50-53.

Safer Work Zone Channelization with Plastic Drums. Riedel, Charles E. Sept., 35-38.

Signing and Marking of Trap Lanes. Foxen, Gary. June, 48-49.

Drivers

Engineering Factors in Alcohol-Involved Traffic Accidents. Hall, Jerome. Jan., 25-28.

Vehicle Registration Information System. Lemkes, Mark J. Apr., 39-42.

Education

Crisis in Transportation Engineering 1985. Michael, Harold L. Mar., 19-22.

Technical Assistance Program for Local Transportation Officials. Walker, Donald M., and Smith, Robert L. Apr., 23-25.

Energy and Environment

Fuel Consumption Analyses for Urban Traffic Management. Bowyer, Darrell P.; Akcelik, Rahmi; and Biggs, David C. Dec., 31-34.

Models for Estimation of Car Fuel Consumption in Urban Traffic. Biggs, David C., and Akcelik, Rahmi. July, 29-32.

Transportation Energy Contingency Planning. Technical Council Committee 6F-27. Aug., 21-23.

U.S. Transportation Energy Supply and Demand Forecasts to the Year 2000. Technical Council Committee 6F-25. June, 21-22.

Financial and Funding Considerations

Adequate Public Facilities Ordinances and Traffic Impact Studies: A Discussion of Issues. Baumgaertner, William E., and Chadda, Himmat S. May, 41-45.

Buying Signal Equipment by Evaluating Proposals, Rather Than by Accepting Lowest Bid. Wainwright, W. Scott. July, 51-52.

Cost-Effectiveness Analysis for Various Inventory Procedures. Datta, Tapan K., and Herf, Lynne. Sept., 23-26.

Innovative Financing for Highway Improvements in Real Estate Development. Keyes, Raymond. Mar., 23-27.

Oil Overcharge Program Provides Funding for Signal Timing Improvements. Euler, Gary W., and Wilbur, Antoinette. Oct., 19-22.

Procedure for Allocating Road Improvement Costs to Private Developers. Niedowski, Raymond S.; Roache, William J.; Bonsignore, Ruth M.; and Perreault, Robert A. Jr. Dec., 35-39.

Revenue Shortfall in Transportation. Technical Council Committee 6Y-21. Aug., 18-19.

Freeway Operations

Truck Operations and Regulations on Urban Freeways in Texas. Stokes, Robert W., and McCasland, William R. Feb., 17-21.

Use and Effectiveness of Synthetic Origin-Destination Data in a Macroscopic Freeway Simulation Model. Stokes, Robert W., and Morris, Daniel E. Apr., 43-47.

Future Growth Considerations

Dealing with the Transportation Impacts of Site Development. ITE. May, 17-20.

Speculations on the Future of Transportation. Peterson, Richard L., and Stokes, Robert W. Apr., 51-54.

Use of Census Data in Transportation Planning. Technical Council Committee 6Y-30. July, 17-18.

Highway Systems and Design

At-Grade Split Diamond Intersection. Marcuson, Joel K. Feb., 50-52.

Reaching a Consensus for Rehabilitation of the North Central Expressway. Gannis, Bryan C. Dec., 19-23.

History

National Road: Precursor to Today's Highways. July, 15-16.

Institute of Transportation Engineers

Policy Committee Proposes Five New and Two Revised ITE Policies. ITE. July, 13-14.

Markings

Driveway Identification Signing and Marking. Technical Council Committee 4A-3. Sept., 13-15.

Signing and Marking of Trap Lanes. Foxen, Gary. June, 48-49.

Mass Transportation

Application of the Time-Space Concept in Analyzing Metro Station Platforms. Grigoriadou, Maria, and Braaksma, John P. May, 33-37.

Bus Maintenance Facility Planning. Technical Council Committee 6A-30. Oct., 18.

Designing for Passenger Information Needs in Subway Systems. Beck, Robert. Jan., 17-24.

Histopline Interpolation for Data Input into the Transit Ridership Forecasting Model. Lindquist, Peter S. Nov., 31-36.

Unique Roadway Design Reduces Bus-Bike Conflicts. Berchem, Steve, and Somerfeld, Warren O. Feb., 46-47.

Urban Congestion in Poland: The Problem Remains Despite High Mass Transit Mode Split. Nungesser, Lisa G. Aug., 27-30.

Parking

Peak Period Occupancy—A Parking Management Tool. Lee, Chi Y. Dec., 25-29.

Relative Efficiencies of Various Parking Angles. Chodash, Irwin L. Mar., 34-37.

Synopsis of the New Orleans On-Street Parking Management Program Evaluation Report. St. Martin, Marcia Armant. May, 29-32.

Pedestrians and Bicycles

Pedestrian Control at Signalized Intersections. Technical Council Committee 4A-15. Feb., 13-15.

Pedestrian Planning Activities. Technical Council Committee 6Y-28. June, 17-20.

Unique Roadway Design Reduces Bus-Bike Conflicts. Berchem, Steve, and Somerfeld, Warren O. Feb., 46-47.

Rail, Water, and Air Transportation

Approach to Improving Railway Engineering Maintenance Productivity. Lawrence, Leslie S., and Steinmetz, William R. Feb., 22-26.

Golden Age of Train Travel. Mar., 17.

Safety

Analysis of Operation and Safety Characteristics of Left-Turn Lanes. Craus, Joseph, and Mahalel, David. July, 34-39.

Correction of Hazards on Urban Streets. Technical Council Committee 5-7. May, 21-23.

Effect of Safety Programs and Tort Liability

on Highway Standards. Technical Council Committee 5B-10. Oct., 14-17.
Haz-Mat Transportation—A Simplistic Opinion. Gonseth, Alan T. Nov., 23-25.
Liability in the 1980s: Construction Zones, Intersections, and the MUTCD. Oliver, David C. Apr., 27-32.
Safer Work Zone Channelization with Plastic Drums. Riedel, Charles E. Sept., 35-38.
Safety Also a Winner in Auto Racing. May, 14-15.
Sight Distance, Signing, and Safety on Vertical Curves. Kostyniuk, Lidia P., and Cleveland, Donald E. May, 25-28.
Towards Improving Road Traffic Safety in Nigeria. Adesanya, Moibi Folarin. Jan., 29-32.
Use of Accident Type and Road Class Information in Assessing the Urban Road Safety Problem. Hoque, Mohammed M., and Andreassen, David C. Aug., 51-54.

Signal Equipment and Operations

Buying Signal Equipment by Evaluating Proposals, Rather Than by Accepting Lowest Bid. Wainwright, W. Scott. July, 51-52.
Fuel Consumption Analyses for Urban Traffic Management. Bowyer, Darrell P.; Akcelik, Rahmi; and Biggs, David C. Dec., 31-34.
Left Turns on Amber and Red from Exclusive Double Left-Turn Lanes. Stokes, Robert W.; Messer, Carroll J.; and Stover, Vergil G. Jan., 50-53.
Management and Operation of Traffic Signals in Melbourne, Australia. Committee on Traffic Signals, Australian Section of ITE. Aug., 43-46.
NEMA and Traffic Control. Parris, Crawley A. Aug., 31-33.
New NEMA Traffic Controller Concept. Parris, Crawley A. Dec., 41-42.
Oil Overcharge Program Provides Funding for Signal Timing Improvements. Euler, Gary W., and Wilbur, Antoinette. Oct., 19-22.
Pedestrian Control at Signalized Intersections. Technical Council Committee 4A-15. Feb., 13-15.
Summary of the Use of Warrants for the Installation of Left-Turn Phasing at Signalized Intersections. Lalani, Nazir; Cronin, Daniel; Hattan, David; and Searls, Terence. Apr., 57-59.

Signal Systems

Computer Program for Generating Continuous Time Reference Cycles. Rudden, James B. June, 29-33.
Management and Operation of Traffic Signals in Melbourne, Australia. Committee on Traffic Signals, Australian Section of ITE. Aug., 43-46.
Research on the TRANSYT and SCOOT Methods of Signal Coordination. Robertson, Dennis I. Jan., 36-40.

Signs

Driveway Identification Signing and Marking. Technical Council Committee 4A-3. Sept., 13-15.
Sight Distance, Signing, and Safety on Vertical Curves. Kostyniuk, Lidia P., and Cleveland, Donald E. May, 25-28.
Signing and Marking of Trap Lanes. Foxen, Gary. June, 48-49.

Speed

Effect of Police Presence on Urban Driving Speeds. Armour, Mary. Feb., 40-45.
Road Bumps—Appropriate for Use on Public Streets? Technical Council Committee 5B-15. Nov., 18-21.

Street Planning and Design

Road Bumps—Appropriate for Use on Public Streets? Technical Council Committee 5B-15. Nov., 18-21.

Survey and Study Methods

Common Structure of Geo-Based Data for Roadway Information Systems. Mannering, Fred L., and Kilareski, Walter P. July, 43-49.
Cost-Effectiveness Analysis for Various Inventory Procedures. Datta, Tapan K., and Herf, Lynne. Sept., 23-26.
Downloading Data for Trip Generation Analysis Using Lotus 1-2-3. Shea, Carl G., and Fleet, Christopher R. Mar., 42-47.
Extending the Technique of License Plate Number Matching: Central Edinburgh Experience. Davidson, Peter W. Sept., 41-45.
Histopline Interpolation for Data Input into the Transit Ridership Forecasting Model. Lindquist, Peter S. Nov., 31-36.
Infrastructure Inventories—The Starting Point for Effective Highway Management. Opiela, Kenneth, and Perkins, David D. Feb., 27-34.
Procedure to Locate Information Deficiencies on Rural Roads. McGee, Hugh W.; Hughes, Warren E.; and Hostetter, Robert S. Sept., 17-21.

Traffic and Transportation Engineering

A to Z Techniques to Reduce Congestion and Increase Capacity of Streets and Intersections. Kramer, Richard P. Mar., 49-51.
Reducing Traffic Congestion in Herald Square. Rathi, Ajay K., and Lieberman, Edward. Sept., 27-31.

Traffic Flow

Simulating Traffic Flow with Lotus 1-2-3. Snelting, David T. July, 23-28.
Understanding Forced Flow. Urbanik, Thomas II. Oct., 23-26.

Traffic Operations

Analysis of Operation and Safety Characteristics of Left-Turn Lanes. Craus, Joseph, and Mahalel, David. July, 34-39.
Evaluation of Left-Turn Analysis Procedures. Machemehl, Randy B. Nov., 37-41.
Intersection Management Techniques for the Left-Turning Vehicle: The Indianapolis Experience. Greiwe, Ronald R. June, 23-28.
Left Turns on Amber and Red from Exclusive Double Left-Turn Lanes. Stokes, Robert W.; Messer, Carrol J.; and Stover, Vergil G. Jan., 50-53.
System for the Automatic Surveillance of Traffic Situations. Böhnke, Peter, and Pfannerstill, Elmar. Jan., 41-45.
Traffic Impacts of Bridge Resurfacing on Northbound Interstate 5 Through Seattle. Mieras, H. John. Mar., 29-31.
Understanding Forced Flow. Urbanik, Thomas II. Oct., 23-26.

Transportation Engineering Profession

A to Z Techniques to Reduce Congestion and Increase Capacity of Streets and Intersections. Kramer, Richard P. Mar., 49-51.
California's Traffic Engineers—Endangered Species? Deakin, Elizabeth A. June, 45-47.
Crisis in Transportation Engineering 1985. Michael, Harold L. Mar., 19-22.
Policy Committee Proposes Five New and Two Revised ITE Policies. ITE. July, 13-14.
Professionalism in the Public Sector. Hoose, Herman J. Nov., 27-29.
Reducing Traffic Congestion in Herald Square. Rathi, Ajay K., and Lieberman, Edward B. Sept., 27-31.
Speculations on the Future of Transportation. Peterson, Richard L., and Stokes, Robert W. Apr., 51-54.
Technical Assistance Program for Local Transportation Officials. Walker, Donald M., and Smith, Robert L. Jr. Apr., 23-25.
Transportation Engineer: An Indispensable Entity in Land Use Planning. Owolabi, Babatunde "Bob" O. June, 37-39.

Transportation Planning

Dealing with the Transportation Impacts of Site Development. ITE. May, 17-20.
Developments in Microcomputer Network Analysis Tools for Transportation Planning. Lewis, Simon, and McNeil, Sue. Oct., 31-35.
Downloading Data for Trip Generation Analysis Using Lotus 1-2-3. Shea, Carl G., and Fleet, Christopher R. Mar., 42-47.
Journey-to-Work Trip in Lower Manhattan. Nielsten, Gerald V. May, 47-49.
Methodology for Consideration of Pass-By Trips in Traffic Impact Analyses for Shopping Centers. Smith, Steven A. Aug., 37-40.
Research Needs in Transportation Planning Methodology for Developing Countries. Technical Council Committee 6F-30. Apr., 19-21.
Traffic Forecasting for Small- to Medium-Sized Urban Areas. Abu-Eisheh, Sameer A., and Mannering, Fred L. Oct., 37-42.
Transportation Engineer: An Indispensable Entity in Land Use Planning. Owolabi, Babatunde "Bob" O. June, 37-39.
Use and Effectiveness of Synthetic Origin-Destination Data in a Macroscopic Freeway Simulation Model. Stokes, Robert W., and Morris, Daniel E. Apr., 43-47.
Use of Census Data in Transportation Planning. Technical Council Committee 6Y-30. July, 17-18.

Uniformity

Changes to the Manual on Uniform Traffic Control Devices. Upchurch, Jonathan. June, 41-43.
Summary of the Use of Warrants for the Installation of Left-Turn Phasing at Signalized Intersections. Lalani, Nazir; Cronin, Daniel; Hattan, David; and Searls, Terence. Apr., 57-59.

Miscellaneous and Unclassified

Transportation Analysis for Evacuation: State of the Art. Urbanik, Thomas II. Mar., 39-40.
Update: The Institution of Highways and Transportation. Steel, Patricia A. Jan., 47-48.

Author Index

Abu-Eisheh, Sameer A. Oct., 37-42. Transportation Planning.
Adesanya, Moibi Folarin. Jan., 29-32. Safety.

Akcelik, Rahmi. July, 29-32. Energy and Environment.
Akcelik, Rahmi. Dec., 31-34. Energy and Environment, Signal Equipment and Operations.
Anderson, Jack W. Feb., 4. (letter).
Andreassen, David C. Aug., 51-54. Accidents, Safety.
Armour, Mary. Feb., 40-45. Speed.
Baumgaertner, William E. Mar., 4, 6. (letter).
Baumgaertner, William E. May, 41-45. Financial and Funding Considerations.
Baumgaertner, William E. Aug., 5. (letter).
Beck, Robert. Jan., 17-24. Mass Transportation.
Berchem, Steve. Feb., 46-47. Pedestrians and Bicycles, Mass Transportation.
Berreth, Eugene. Oct., 5-6. (letter).
Biggs, David C. July, 29-32. Energy and Environment.
Biggs, David C. Dec., 31-34. Energy and Environment, Signal Equipment and Operations.
Böhnke, Peter. Jan., 41-45. Traffic Operations.
Bonsignore, Ruth M. Dec., 35-39. Financial and Funding Considerations.
Bowyer, Darrell P. Dec., 31-34. Energy and Environment, Signal Equipment and Operations.
Braaksma, John P. May, 33-37. Mass Transportation.
Bubaris, James G. Feb., 4. (letter).
Butler, Jack A. Oct., 6, 45. (letter).
Chadda, Himmat S. May, 41-45. Financial and Funding Considerations.
Chadda, Himmat S. Aug., 5. (letter).
Chodash, Irwin L. Mar., 34-37. Parking.
Cleveland, Donald E. May, 25-26. Safety, Signs.
Committee on Traffic Signals, Australian Section of ITE. Aug., 43-46. Signal Equipment and Operations, Signal Systems.
Craus, Joseph. July, 34-39. Safety, Channelization, Traffic Operations.
Cronin, Daniel. Apr., 57-59. Signal Equipment and Operations, Uniformity.
Datta, Tapan K. Sept., 23-26. Survey and Study Methods, Financial and Funding Consideration.
Davidson, Peter W. Sept., 41-45. Survey and Study Methods.
Deakin, Elizabeth A. June, 45-47. Transportation Engineering Profession.
Euler, Gary W. Oct., 19-22. Financial and Funding Considerations, Signal Equipment and Operations.
Eyler, Dennis R. May, 4. (letter).
Fehon, Kevin J. Sept., 5, 11. (letter).
Fernandez, Pedro M. Dec., 4. (letter).
Fleet, Christopher R. Mar., 42-47. Transportation Planning, Survey and Study Methods.
Foxen, Gary. June, 48-49. Signs, Markings, Channelization.
Gannis, Bryan C. Dec., 19-23. Highway Systems and Design.
Garber, Nicholas J. Jan., 4. (letter).
Gonseth, Alan T. Nov., 23-25. Safety.
Gordon, Richard A. June, 5. (letter).
Greenberg, Fred M. Jan., 4. (letter).
Greenberg, Fred M. Oct., 45. (letter).
Greiwe, Ronald R. June, 23-28. Channelization, Traffic Operations.
Grigoriadou, Maria. May, 33-37. Mass Transportation.
Hall, Jerome. Jan., 25-28. Accidents, Drivers.
Hattan, David. Apr., 57-59. Signal Equipment and Operations, Uniformity.
Herf, Lynne. Sept., 23-26. Survey and Study Methods, Financial and Funding Considerations.
Hobeika, Antoine G. Jan., 4. (letter).
Hoose, Herman J. Nov., 27-29. Transportation Engineering Profession.
Hoque, Mohammed M. Aug., 51-54. Accidents, Safety.
Hostetter, Robert S. Sept., 17-21. Survey and Study Methods.
Hughes, Warren E. Sept., 17-21. Survey and Study Methods.
ITE. May, 17-20. Future Growth Considerations, Transportation Planning.
ITE. July, 13-14. Institute of Transportation Engineers.
Keyes, Raymond. Mar., 23-27. Financial and Funding Considerations.
Kilareski, Walter P. July, 43-49. Survey and Study Methods.
Kostyniuk, Lidia P. May, 25-28. Safety, Signs.
Kramer, Richard P. Mar., 49-51. Traffic and Transportation Engineering.
Lalani, Nazir. Apr., 57-59. Signal Equipment and Operations, Uniformity.
LaPlante, John N. Feb., 4. (letter).
Lawrence, Leslie S. Feb., 22-26. Rail, Water, and Air Transportation.
Lee, Chi Y. Dec., 25-29. Parking.
Lee, Kang W. Feb., 35-39. Accidents.
Lee, Kang W. Aug., 4-5. (letter).
Leisch, Joel P. Feb., 4. (letter).
Leisch, Joel P. Apr., 4. (letter).
Lemkes, Mark J. Apr., 39-42. Drivers.
Lewis, Simon. Oct., 31-35. Transportation Planning.
Lieberman, Edward B. Sept., 27-31. Traffic and Transportation Engineering.
Lindquist, Peter S. Nov., 31-36. Mass Transportation, Survey and Study Methods.
Machemehl, Randy B. Nov., 37-41. Channelization, Traffic Operations.
Mahalel, David. July, 34-39. Safety, Channelization, Traffic Operations.
Mannering, Fred L. July, 43-49. Survey and Study Methods.
Mannering, Fred L. Oct., 37-42. Transportation Planning.
Marcuson, Joel K. Feb., 50-52. Highway Systems and Design.
McCasland, William R. Feb., 17-21. Freeway Operations.
McGee, Hugh W. Sept., 17-21. Survey and Study Methods.
McGrath, William R. Feb., 4. (letter).
McGrath, William R. Nov., 4. (letter).
McNeil, Sue. Oct., 31-35. Transportation Planning.
Messer, Carroll J. Jan., 50-53.
Michael, Harold L. Mar., 19-22. Transportation Engineering Profession, Education.
Mieras, H. John. Mar., 29-31. Traffic Operations.
Milch, Frederick W. Dec., 4. (letter).
Morris, Daniel E. Apr., 43-47. Transportation Planning, Freeway Operations.
Morris, Daniel E. Aug., 5. (letter).
Morris, Robert L. Oct., 45. (letter).
Niedowski, Raymond S. Dec., 35-39. Financial and Funding Considerations.
Nielsen, Gerald V. May, 47-49. Transportation Planning.
Nungesser, Lisa G. Aug., 27-30. Transportation and Traffic Engineering, Mass Transportation.
Oliver, David C. Apr., 27-32. Safety, Accidents.
Opiela, Kenneth. Feb., 27-34. Survey and Study Methods.
Owolabi, Babatunde "Bob" O. June, 37-39. Transportation Planning, Transportation Engineering Profession.
Owolabi, Babatunde "Bob" O. Aug., 5. (letter).
Parris, Crawley A. Aug., 31-33. Signal Equipment and Operations.
Parris, Crawley A. Dec., 41-42. Signal Equipment and Operations.
Perkins, David D. Feb., 27-34. Survey and Study Methods.
Perreault, Robert A., Jr. Dec., 35-39. Financial and Funding Considerations.
Peterson, Richard L. Apr., 51-54. Transportation Engineering Profession, Future Growth Considerations.
Pfannerstill, Elmar. Jan., 41-45. Traffic Operations.
Pittman, Victor F., Oct., 4-5. (letter).
Potvin, Richard. Aug., 4. (letter).
Rathi, Ajay K. Sept., 27-31. Traffic and Transportation Engineering.
Riedel, Charles E. Sept., 35-38. Channelization, Safety.
Roache, William J. Dec., 35-39. Financial and Funding Considerations.
Robbins, Jerry. June, 4. (letter).
Robertson, Dennis I. Jan., 36-40. Signal Systems.
Rudden, James B. June, 29-33. Signal Systems.
Saito, Mitsuru. Jan., 4. (letter).
Searls, Terence. Apr., 57-59. Signal Equipment and Operations, Uniformity.
Shapiro, Steven R. July, 4. (letter).
Shea, Carl G. Mar., 42-47. Transportation Planning, Survey and Study Methods.
Smith, Robert L., Jr. Apr., 23-25. Education, Transportation Engineering Profession.
Smith, Steven A. Aug., 37-40. Transportation Planning.
Snelting, David T. July, 23-28. Traffic Flow.
Somerfeld, Warren O. Feb., 46-47. Pedestrians and Bicycles, Mass Transportation.
Somerfeld, Warren O. June, 4-5. (letter).
St. Martin, Marcia Armant. May, 29-32. Parking.
Steel, Patricia A. Jan., 47-48. Miscellaneous and Unclassified.
Stein, Howard S. June, 4. (letter).
Steinmetz, William R. Feb., 22-26. Rail, Water, and Air Transportation.
Stokes, Robert W. Jan., 50-53. Channelization, Traffic Operations, Signal Equipment and Operations.
Stokes, Robert W. Feb., 17-21. Freeway Operations.
Stokes, Robert W. Apr., 43-47. Transportation Planning, Freeway Operations.
Stokes, Robert W. Apr., 51-54. Transportation Engineering Profession, Future Growth Considerations.
Stokes, Robert W. Sept., 5. (letter).
Stover, Vergil G. Jan., 50-53. Channelization, Traffic Operations, Signal Equipment and Operations.
Technical Council Committee 4A-15. Feb., 13-15. Pedestrians and Bicycles, Signal Equipment and Operations.
Technical Council Committee 4A-3. Sept., 13-15. Signs, Markings.
Technical Council Committee 5-7. May, 21-23. Safety.

Technical Council Committee 5B-10. Oct., 14-17. Safety.
Technical Council Committee 5B-15. Nov., 16-21. Speed, Street Planning and Design.
Technical Council Committee 6A-29. July, 19-22. Mass Transit.
Technical Council Committee 6A-30. Oct., 18. Mass Transportation.
Technical Council Committee 6F-25. June, 21-22. Energy and Environment.
Technical Council Committee 6F-27. Aug., 21-23. Energy and Environment.
Technical Council Committee 6F-30. Apr., 19-21. Transportation Planning.
Technical Council Committee 6Y-21. Aug., 18-19. Financial and Funding Considerations.
Technical Council Committee 6Y-28. June, 17-20. Pedestrians and Bicycles.
Technical Council Committee 6Y-30. July, 17-18. Transportation Planning, Future Growth Considerations.
Upchurch, Jonathan. June, 41-43. Uniformity.
Urbanik, Thomas II. Jan., 4. (letter).
Urbanik, Thomas II. Mar., 39-40. Miscellaneous and Unclassified.
Urbanik, Thomas II. Oct., 4. (letter).
Urbanik, Thomas II. Oct., 23-26. Traffic Flow, Traffic Operations.
Wainwright, W. Scott. July, 51-52. Financial and Funding Considerations, Signal Equipment and Operations.
Walker, Donald M. Apr., 23-25. Education, Transportation Engineering Profession.
Wilbur, Antoinette. Oct., 19-22. Financial and Funding Considerations, Signal Equipment and Operations.
Wilson, Carl. Oct., 43. (letter).
Yagar, Sam. Apr., 4. (letter).
Yagar, Sam. Sept., 5. (letter).
Yagar, Sam. Oct., 4. (letter).
Zimmerman, Judith A. Mar., 4. (letter).

ITE Reports and Other Publications

1986

Publications listed here include ITE standards, recommended practices, and informational reports, as well as annual meeting papers published in the Compendium of Technical Papers. Numbers listed after author indicates ITE publication order number. Articles published in the Compendium have their page numbers listed after the publication number (PP-008). For information on ordering these publications, see the order form on pages 51 and 52.
For a complete list of ITE publications, contact ITE, 525 School Street, S.W., Suite 410, Washington, DC 20024-2729 USA.

Subject Index

Accidents

New York City Heavy Truck Crashes: 1983-1985 Findings. Schwartz, Samuel I., and Retting, Richard A. PP-008, 245-253.

Channelization

Evaluation of Left Turn Analysis Procedures—1986 Section Technical Award. Mechemehl, Randy. PP-008, 220-224.
Evaluation of Portable Concrete Barrier Delineators. Ugwoaba, Dwin. PP-008, 274-278.
Optimum Length of Two-Lane Two-Way Traffic Operations Through Reconstruction Zones on Interstate Highways. McCoy, Patrick T. PP-008, 263-268.

Energy and Environment

Transportation Energy Contingency Planning. Technical Committee 6F-27. IR-046.
United States Transportation Energy Supply and Demand. Technical Committee 6F-25. IR-047.

Financial and Funding Considerations

Application of an Economic Analysis Computer Package by a Local Jurisdiction. Lima, Peter M.; Burt, J.D.; Haden, Richard; and Singh, Virendra. PP-008, 211-214.
Buying Traffic Signal Equipment By Evaluating Proposals Rather than by "Low Bid." Wainwright, W. Scott, and Welke, Ronald. PP-008, 94-98.
Co-Mingling of Bond and Developer Funds to Finance New Interchanges on Florida's Turnpike. Goldberg, Arthur H. PP-008, 146-147.
Low-Cost Approach Toward Traffic Signal Interconnect. Beaubien, Richard F., and Kessman, Roy W. PP-008, 24-28.
Privatization of Traffic Control Device Installation and Maintenance in Metropolitan Toronto. Kaufman, David, and Early, Natalie. PP-008, 88-93.
Procedure for Allocating Road Improvement Costs to Private Developers. Niedowski, Raymond S.; Roache, William J.; Bonsignore, Ruth M.; and Perreault, Robert A., Jr. PP-008, 149-152.
Public/Private Financing of Roadway Improvements—The Laguna Experience. Ruehr, Erik O. PP-008, 153-157.
Public/Private Participation in Transportation Projects. Shebesta, Harvey. PP-008, 158-161.
Revenue Shortfall in Transportation. Technical Committee 6Y-30. IR-044.
Tax Abatement Facilitates Interchange Modifications. Gruner, Paul W., and Hedges, Cheryl A. PP-008, 136-140.
Transportation Impact Fees—The Florida Experience. Krzeminski, Robert. PP-008, 141-145.

Freeway Operations

Criteria for Raising the 55-mph Speed Limit on Selected Highway Sections: ITE Task Force Report. Pline, James L. PP-008, 39-41.

Future Growth Considerations

Forecasting Traffic Impacts to Improve Growth Management—Approaches Used in Florida. Barr, John W., and Barr, Richard R. PP-008, 47-51.
Model TSM Ordinance. Henderson, Roger B. PP-008, 52-55.
PC-Based Procedures for Urban Development Traffic Impact Assessment. Benz, Gregory P. PP-008, 180-184.
Site Development and Transportation Impacts—National Conference Notebook. ITE. IR-038.
Site Impact Traffic Evaluation Notebook. ITE. PD-014.
Site Traffic Impact Analysis and the 1985 *Highway Capacity Manual*. Wallen, Martin. PP-008, 82-84.
Toward a Policy for Suburban Mobility. Orksi, C. Kenneth. IR-039.
Transportation Trends, 1969-1983, Evidenced by the Nationwide Personal Transportation Study and the Decennial Census. Sosslau, Arthur B.; Klinger, Dieter; and Briggs, Dwight. PP-008, 14-18. coauthor.
Urban Traffic Congestion: What Does the Future Hold? ITE. IR-040.
Use of Census Data in Transportation Planning. Technical Committee 6Y-30. IR-0118

Highway Systems and Design

Highway Analysis System: An Integrated Database and Engineering System. Kruger, Gary E. PP-008, 191-195.

Institute of Transportation Engineers

Membership Directory. ITE. PP-001.

Markings

Surviving the Test of Time. Anton-Thomas, Monica. PP-008, 42-46.

Mass Transportation

Guidelines for High-Occupancy-Vehicle (HOV) Lanes. Technical Committee 6A-16. RP-017.

Parking

Traffic and Parking Strategies for New York City's Convention Center. Taub, Martin S. PP-008, 56-62.

Pedestrians and Bicycles

Pedestrian Traffic Control Signal Indications. Technical Committee 4S-11. ST-011B.

Rail, Water, and Air Transportation

Consequences of Mandating Stops at Railroad Highway Crossings with Active Warning Devices. Bowman, Brian L.; Hughes, Gary; and McCarthy, Kevin. PP-008, 115-121.

Safety

Consequences of Mandating Stops at Railroad Highway Crossings with Active Warning Devices. Bowman, Brian L.; McCarthy, Kevin; and Hughes, Gary. PP-008, 115-121.
Correction of Hazards on Urban Streets. Technical Committee 5-7. IR-043.
Criteria for Raising the 55-mph Speed Limit on Selected Highway Sections: ITE Task Force Report. Pline, James L. PP-008, 39-41.
Establishing Hazardous Materials Truck Routes in the Dallas-Ft. Worth Metropolitan Area. Kessler, Dan. PP-008, 108-114.
Hazardous Materials Routing in Non-Urban Areas. Haddow, George D., and Kehew, Robert B. PP-008, 99-102.
I-394 Interim HOV Lanes: A Valuable Construction Zone Traffic Management System. Eyler, Dennis R.; Beltt, Charleen Z.; and Borson, Richard D. PP-008, 258-262.

Optimum Length of Two-Lane Two-Way Traffic Operations Through Reconstruction Zones on Interstate Highways. McCoy, Patrick T. PP-008, 263-268
Safety Programs and Their Effects on Highway Standards. Technical Committee 5B-10 IR-045.
Selection of Highway Routes for the Shipment of Radioactive Materials within the Commonwealth of Virginia. Hobeika, Antoine G.; Jamei, Bahram; and Santoso, Iwan B. PP-008, 103-107.
Surviving the Test of Time. Anton-Thomas, Monica. PP-008, 42-46.

Signal Equipment and Operations

Buying Traffic Signal Equipment by Evaluating Proposals Rather than by "Low Bid." Wainwright, W. Scott, and Weike, Ronald. PP-008, 94-98.
Cable: A Computer Program for Traffic Signal Design. Godfrey, David. PP-008, 171-175.
Capacity Analysis Techniques for Signalized Intersections. Leisch, Jack E. LP-115.
Capacity Charts for Signalized Intersections: Predicated on 1985 *Highway Capacity Manual*. Leisch, Jack E. PP-008, 63-70.
Guidelines for Prohibition of Turns on Red. Technical Committee 4A-17. RP-018.
LHOVRA—A New Traffic Signal Control Strategy for Isolated Intersections. Peterson, Alf, and Bergh, Torsten. PP-008, 162-165.
Pedestrian Traffic Control Signal Indications. Technical Committee 4S-11. ST-011B.
Programming and Management of Traffic Signal Maintenance. Davis, John A. PP-008, 166-170.
Sensitivity Analysis of Signalized Intersection Capacity Parameters. Lima, Peter M., and Bonneson, James A. PP-008, 77-81.
Signalized Intersection Capacity Analysis in the 1985 HCM: Engineering Tool or Academic Exercise? Gayle, Steven B. PP-008, 71-76.
Signalized Intersection Nomographs. Leisch, Jack E. LP-116.

Signal Systems

Directional Weighting for Maximal Bandwidth Arterial Signal Optimization Programs. Chang, Edmond Chin-Ping; Messer, Carroll J.; and Cohen, Stephen L. PP-008, 33-38.
Low-Cost Approach Toward Traffic Signal Interconnect. Beaubien, Richard F., and Kessman, Roy W. PP-008, 24-28.
Management and Operation of Traffic Signals in Melbourne, Australia. Giummara, George J. PP-008, 19-23.
UTCS and the Small System. Yagoda, H. Nathan; Herstein, Harold I.; Walczak, Wojciech; and Madonna, Mark D. PP-008, 29-32.

Signs

The Signs . . . They Are A'Changin: Concepts in Sign Maintenance. Campbell, Janet. PP-008, 230-232.

Speed

Criteria for Raising the 55-mph Speed Limit on Selected Highway Sections: ITE Task Force Report. Pline, James L. PP-008, 39-41.

Traffic and Transportation Engineering

Automobile Travel Reduction Options in Urban Areas. Technical Committee 6A-26. IR-041.
Data Sources for the Expert Witness. Bissell, Howard H. PP-008, 1-5.
Keeping the Traffic Engineering Function Alive and Well. Butzer, George. PP-008, 85-87.
Local Area Traffic Management in Australia. Howie, Donald J., and O'Sullivan, David B. PP-008, 225-229.
Possibilities of Fuzzy Sets and Expert Systems in Transportation Management. Altschaeffl, A.G., and Chameau, J.L. PP-008, 196-200.
Pre-Testimony Investigation Procedures. Dart, Olin K., Jr. PP-008, 6-8.
Traffic Engineer as an Expert Witness. Chadda, Himmat S., and Mulinazzi, Thomas E. PP-008, 9-13.
Traffic and Parking Strategies for New York City's Convention Center. Taub, Martin S. PP-008, 56-62.

Traffic Operations

Capacity Analysis Techniques for Signalized Intersections. Leisch, Jack E. LP-115.
Capacity Charts for Signalized Intersections: Predicated on 1985 Highway Capacity Manual. Leisch, Jack E. PP-008, 63-70.
Comparative Economic Analysis for Highway Reconstruction Projects: New HCM versus Old HCM. Sharma, Satish C., and Lingras, Pawan J. PP-008, 269-273.
Evaluation of Left Turn Analysis Procedures–1986 Section Technical Award. Machemehl, Randy. PP-008, 220-224.
Guidelines for Prohibition of Turns on Red. Technical Committee 4A-17. RP-018.
I-394 Interim HOV Lanes: A Valuable Construction Zone Traffic Management System. Eyler, Dennis R.; Beltt, Charleen Z.; and Borson, Richard D. PP-008, 258-262.
Operational and Geometric Evaluation of Exclusive Truck Facilities. Mason, John M., Jr.; Middleton, Don R.; and Petersen, Harvey C. PP-008, 237-244.
Optimum Length of Two-Lane Two-Way Traffic Operations Through Reconstruction Zones on Interstate Highways. McCoy, Patrick T. PP-008, 263-268.
Sensitivity Analysis of Signalized Intersection Capacity Parameters. Lima, Peter M., and Bonneson, James A. PP-008, 77-81.
Signalized Intersection Capacity Analysis in the 1985 HCM: Engineering Tool or Academic Exercise? Gayle, Steven B. PP-008, 71-76.
Signalized Intersection Nomographs. Leisch, Jack E. LP-116.
Site Traffic Impact Analysis and the 1985 *Highway Capacity Manual*. Wallen, Martin. PP-008, 82-84.
Truck Operations on Arterial Streets. Gerard, David G., and Wunderlich, Robert C. PP-008, 233-236.
Urban Traffic Congestion: What Does the Future Hold? ITE. IR-040.

Transportation Engineering Profession

Automobile Travel Reduction Options in Urban Areas. Technical Committee 6A-26. IR-041.
Data Sources for the Expert Witness. Bissell, Howard H. PP-008, 1-5.
Ethics and the Expert Witness. Anderson, Jack W. PP-008, 122-124.
Keeping the Traffic Engineering Function Alive and Well. Butzer, George. PP-008, 85-87.
Litigation Crisis: Challenge to the Transportation Engineer. Wallen, Martin. PP-008, 133-135.
Local Area Traffic Management in Australia. Howie, Donald J., and O'Sullivan, David B. PP-008, 225-229.
Membership Directory. ITE. PP-001.
1986 Salary and Benefits Survey. Technical Committee 2-29. IR-037.
Possibilities of Fuzzy Sets and Expert Systems in Transportation Management. Altschaeffl, A.G., and Chameau, J.L. PP-008, 196-200.
Pre-Testimony Investigation Procedures. Dart, Olin K., Jr. PP-008, 6-8.
Traffic and Parking Strategies for New York City's Convention Center. Taub, Martin S. PP-008, 56-62.
Traffic Engineer as an Expert Witness. Chadda, Himmat S., and Mulinazzi, Thomas E. PP-008, 9-13.
Working with Attorneys as an Engineering Expert Witness. Baerwald, John. PP-008, 125-126.

Transportation Planning

Development and Application of Lotus 1-2-3 Electronic Spreadsheets for Traffic Volume Projections. Da Silva, Gustavo V. PP-008, 185-190.
Forecasting Traffic Impacts to Improve Growth Management—Approaches Used in Florida. Barr, John W., and Barr, Richard R. PP-008, 47-51.
Improvement to Traffic Assignment Techniques in Existing Software. Allen, Duncan W. PP-008, 176-179.
Microcomputer Application of the Florida Standard Urban Transportation Modeling Structure. Teeple, Suraya; Fennessy, James; and Kaltenbach, Kenneth. PP-008, 206-210.
Model TSM Ordinance. Henderson, Roger B. PP-008, 52-55.
PC-Based Procedures for Urban Development Project Traffic Impact Assessment. Benz, Gregory P. PP-008, 180-184.
Regional Transportation Systems Planning on a Microcomputer: Indianapolis, Indiana, Case Study. Shimizu, Ronald A., and Yang, Sweson. PP-008, 201-205.
Site Development and Transportation Impacts—National Conference Notebook. ITE. IR-038.
Site Impact Traffic Evaluation Notebook. ITE. PD-014.
Transportation Energy Contingency Planning. Technical Committee 6F-27. IR-046.
Use of Census Data in Transportation Planning. Technical Committee 6Y-30. IR-011B.

Uniformity

1986 Amendments to the MUTCD: Changes That Every Traffic Engineer Should Know. Upchurch, Jonathan. PP-008, 215-219.

Miscellaneous and Unclassified

Problems and Effects of Overloading on Jordanian Roads. Al-Balbissi, Adli H. PP-008, 254-257.

Author Index

Al-Balbissi, Adli H. PP-008, 254-257. Miscellaneous and Unclassified.

Allen, Duncan W. PP-008, 176-179. Transportation Planning.
Altschaeffl, A.G. PP-008, 196-200. Traffic and Transportation Engineering.
Anderson, Jack W. PP-008, 122-124. Transportation Engineering Profession.
Anton-Thomas, Monica. PP-008, 42-46. Markings, Safety.
